

**REMARKS/ARGUMENTS**

By this Amendment, each occurrence of the word “tyre” has been amended to “tire” and the word “manoeuvres” has been amended to “maneuvers” in the specification to correct the spelling in accordance with the U.S. English language. In addition, a typographical error in the form of the word “type” on page 2 has been corrected to the word “tire”. Claims 1-12 are canceled and claims 13-24 are added. Claims 13-24 are pending. An Abstract [corresponding to that of the published PCT application corresponding to this application] is attached on a separate sheet. No new matter is added.

This Amendment is submitted to better conform the application to United States practice by, *inter alia*, eliminating multiple dependencies from the claims and adding section headings to the specification. The present claims are identical to the claims filed in the Amendment under Article 34 and have been further amended to remove the multiple dependencies.

It is respectfully submitted that the application is in good form for initial examination on the merits. Accordingly, prompt and favorable examination on the merits is respectfully requested.
